

## LIST OF PSW-ELIGIBLE COUNTRIES AND REGIONS

The PSW-eligible list is confirmed at the beginning of IDA18 for the duration of the three-year IDA18 period, and adjusted for countries that fall back to IDA-only or IDA-eligible FCS status. The eligible countries/regions must meet one of the following criteria:

- i) IDA-only<sup>1</sup>
- ii) fragile or conflict-affected IDA-gap and blend countries<sup>2</sup>
- iii) fragile or conflict-affected sub-regions of non-FCS IDA gap and blend countries, subject to review by the PSW Oversight Committee<sup>3</sup>

Countries accessing the MIGA Guarantee Facility (MGF) must be MIGA members. Countries accessing the Blended Finance Facility (BFF), Local Currency Facility (LCF) and Risk Mitigation Facility (RMF) must be IFC members.

<sup>1</sup> IDA-only refers to IDA regular, non-gap, non-blend countries based on 2016 GNI per capita at \$1,165 or less.

<sup>2</sup> Eligibility for fragile or conflict-affected blend and gap countries will be determined on the basis of a World Bank Country Policy and Institutional Assessment (CPIA) rating below 3.2, or presence of a UN peacekeeping or peacebuilding mission. 'Gap countries' are those whose per capita incomes have been over IDA's operational cutoff (\$1,165 in FY18) for more than two years, but are not yet IBRD creditworthy. 'Blend countries' have access to both IDA and IBRD resources.

<sup>3</sup> Sub-national fragility is determined through a qualitative and quantitative assessment including more than 25 conflict-related deaths per year, carried out by the Fragility, Conflict and Violence Cross-Cutting Solutions Areas (FCV CCSA).
